Day-24 27/03/2022	02:00 P.M To 04:00 P.M	Examination	

The objectives of the Programme :

1. It has become common practice that the Editorial Board and publishers of journals of even moderate impact are accepting the manuscripts in LaTeX format to avoid delay in the review process and production.
2. LaTeX is a text format which is globally recognized. Because of the lack of expertise in LaTeX, even good research results are not able to find a room in reputed journals.
3. LaTeX is a high-quality typesetting system; it includes features designed for the production of technical and scientific documentation.
4. LaTeX is widely used in academics, for the communication and publication of scientific documents in many fields, including Mathematics, Engineering, Sciences, economics, linguistics, philosophy, and political science.

Important instructions to participants:

1. Every week schedule will be posted in the WhatsApp Group & Google Classroom.
2. You can also watch the videos at your convenient time.
3. Every week an assignment is posted which is mandatory for all the participants.
5. The assignment is open until next week (There will be no exclusions for the time which is managed by Google Classroom).
5. At the end of the course the project will be given to form document which includes all topics covered in program.
6. Attendance and Assignment submission will be strictly monitored by the organizing team. E-certificates will be awarded based on submitted assignments and project.
